

EAVES STEM CELL ASSAY REQUISITION

Addressograph:

Eaves Stem Cell Assay Laboratory
Terry Fox Laboratory, BC Cancer Agency
675 W. 10th Avenue, Vancouver BC V5Z 1L3
Phone: (604) 675-8000 x 7746
Fax: (604) 675-8146
Hours: Monday - Friday 9am - 5pm (closed weekends and statutory holidays)

Patient Name: _____ Sex: Male Female
Date of Birth (mm/dd/yy): _____ Hospital: _____
PHN: _____ Patient is: Inpatient Outpatient
Diagnosis/Clinical History: _____

**If available please include copies of most recent reports:
CBC, Bone Marrow (Aspirate and Biopsy) and Cytogenetics/DNA Analysis/Jak2**

Requesting Physician: _____ MSP #: _____ Tele #: _____ Fax #: _____
Family Physician: _____ MSP #: _____ Tele #: _____ Fax #: _____
Other Physician: _____ MSP #: _____ Tele #: _____ Fax #: _____

TEST(s) REQUESTED: Please note that the clinical utility of these tests is not yet established and these tests should be considered research.

COLONY FORMING CELL (CFC) ASSAY

- Peripheral Blood - 20 ml blood collected in Sodium Heparin, received within 24 hrs
- Bone Marrow - 2 ml marrow collected in Heparin, received within 24 hrs

CHIMERISM POST TRANSPLANT ASSESSMENT

- Peripheral Blood - 20ml blood collected in Sodium Heparin, received before 3:30pm Mon-Thur only

LYMPHOCYTE SORTING FOR GERMLINE TESTING

- Peripheral Blood - 20ml blood collected in Sodium Heparin, received before 3:30pm Mon-Thur only

MORE DETAILED COLLECTION INSTRUCTIONS CAN BE FOUND ON REVERSE

Specimen Collection Date (mm/dd/yy): _____ Specimen Collection Time: _____

Eaves Stem Cell Assay use only

Specimen Received: _____ Specimen(s) No: _____

Comments: _____

INSTRUCTIONS FOR COLLECTION AND DELIVERY OF SPECIMENS FOR THE EAVES STEM CELL ASSAY LABORATORY

COLONY FORMING CELL (CFC) ASSAY

Peripheral Blood: 20 to 30 ml peripheral blood collected in Sodium Heparin vacutainer tubes.

Bone Marrow: 1 to 3 ml bone marrow collected aseptically in Eaves Stem Cell Culture tubes containing 80 U/ml Heparin. These tubes are obtained directly from the Eaves Stem Cell Assay lab.

Ideally both a peripheral blood and bone marrow sample should be sent for complete assessment of the colony-forming hematopoietic stem cell compartment.

Specimens must be labeled with - the patient's name; another unique identifier such as DOB or PHN; type of specimen; date and time the sample was drawn. Package the sample for transport as per site instructions.

Do not collect or send specimens the day before or on statutory holidays.

Specimens have to be processed as quickly as possible the same day of collection, or stored at 4°C and received no longer than 24 hours after collection. Therefore, specimens should be sent immediately by courier or air. Specimens need to be kept cool with an ice pack but not frozen. Please advise the Eaves Stem Cell Assay Lab by phone or fax when a specimen has been sent.

Turn around time for a CFC Assay is 6 weeks, by which time a finalized report will have been faxed to the Physician(s).

CHIMERISM POST TRANSPLANT ASSESSMENT or LYMPHOCYTE SORTING FOR GERMLINE TESTING

Peripheral Blood: 20 ml peripheral blood collected in Sodium Heparin vacutainer tubes.

Samples must be drawn Monday to Wednesday only.

Do not collect or send specimens the day before or on statutory holidays and weekends.

Specimens must be labeled with - the patient's name; another unique identifier such as DOB or PHN; type of specimen; date and time the sample was drawn. Package the sample for transport as per site instructions.

Specimens have to be processed as quickly as possible the same day of collection, or stored at 4°C and received no longer than 24 hours after collection. Therefore, specimens should be sent immediately by courier or air. Specimens need to be kept cool with an ice pack but not frozen. Please advise the Eaves Stem Cell Assay Lab by phone or fax when a specimen has been sent.

Specimens should be addressed to: EAVES STEM CELL ASSAY LABORATORY
Terry Fox Laboratory
675 West 10th Avenue
Vancouver, BC
V5Z 1L3
Phone: (604) 675-8000 x 7746
Fax: (604) 675-8146

For more information and concerns, please contact the Section Head at the phone number above.

Please visit our website <https://www.bccrc.ca/dept/tfl/dept/tfl/services/eaves-stem-cell-assay> for further information where copies of the Eaves Stem Cell Assay Requisition and Collection and Delivery Instructions can be obtained.
